click to tweet: goodgraphics.xyz/tweet

I never understood the field HCI, Human-computer interaction. From Wikipedia:

Human-computer interaction (HCI) studies the design and use of computer technology, focused on the interfaces between people (users) and computers. Researchers in the field of HCI observe the ways in which humans interact with computers and design technologies that let humans interact with computers in novel ways.

So I guess thats what this link is. I kind of think of this bot like a new CLI. Eventually, I would love for it to respond to commands and accept arguments. What would you get if you tweeted "@goodgraphicsxyz help" in the future?

Sending this one a little early...trying to relax this weekend.

early is better than never,

-Mello
